# MUNICIPAL REGULATIONS.

CITY CLERK'S OFFICE, CITY OF CONCORD, Jan. 1, 1883.

To Persons having claims against the City:

All persons furnishing materials or service for the city, or aid to city paupers, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the committee on accounts, and no order will be given for its payment.

When bills are certified to as above, and left with the city clerk before twelve o'clock of the day of meeting of the Committee on Accounts, they will be audited by them, and, if approved, be ready for payment on the Wednesday following.

Meetings of the committee are held on the Thursday next preceding the last Saturday of each month, at two o'clock P. M., which will occur the present year, Jan. 25, Feb. 22, March 29, April 26, May 24, June 28, July 26, Aug. 23, Sept. 27, Oct. 25, Nov. 22, Dec. 27.

A new hydrant has been placed at the corner of Union and Maple streets. The expense is included in the above.

The Board, in their report for 1881, considered some of the defects in the Water-Works, as then constructed, particularly the difficulty of furnishing a continuous supply of water to the higher points of the precinct. They also called your attention to the importance of laying an additional main pipe from Franklin street to the pond, concluding that portion of their report as follows:

"The Board, after a thorough investigation and careful consideration of the subject, have unanimously voted to lay a second and larger main from the dam to a point opposite the entrance to Blossom Hill Cemetery, and to lay a large pipe from that point through Walnut street to its intersection with Franklin street. \* \* \* The Board are of the opinion that this main can be laid, with all necessary connections, gates, and appurtenances, for a sum not exceeding fifty thousand dollars. \* \* \* They respectfully ask you to take such measures as will place at their disposal sufficient funds to do this work."

The city council voted to furnish the amount of funds required to proceed with the work immediately.

February 15, 1882, proposals were issued by the Board asking for bids as follows:

1st. To lay a cement-lined pipe, 18 inches in diameter, from a point near the entrance to Blossom Hill Cemetery to the meter-house near the dam, a distance of 11,460 feet.

2d. To lay a cement-lined pipe 12 inches in diameter from Franklin street north through Walnut street, connecting with the 18-inch pipe near the entrance to Blossom Hill Cemetery, a distance of 3,290 feet.

3d. To lay a cement-lined pipe 4 inches in diameter from Bradley street west through Perkins street, connecting with the 12-inch pipe in Walnut street, a distance of 650 feet, with a hydrant at the junction.

February 25, 1882, the contract was awarded to Messrs. Goodhue & Birnie, of Springfield, Mass., they being the lowest bidders, for the sum of forty-four thousand and nine hundred dollars.

During the summer several citizens residing on South street petitioned the city council to enlarge the water precinct so much as to include their estates. The prayer of the petitioners was granted.

July 1, 1882, the Board voted to extend the 6-inch pipe farther south in South street a distance of 2,240 feet, with two fire hydrants attached.

At the same meeting the Board voted to extend the 6-inch pipe farther south in Turnpike street a distance of 713 feet, with one fire hydrant attached.

Special contracts were made with Messrs. Goodhue & Birnie for laying these extensions, and furnishing gates, pipe, and other materials for the completion of the additions and improvements necessary to be made.

December 1, 1882, the Board made an agreement with the Concord Manufacturing Company, a corporation owning water-power and mills at West Concord near our dam, leasing to said company the property owned by the city known as the "kit-factory," and certain rights in the water-power

and lands, also owned by the city, situate on the Cooledge lot, so called, for the term of ten years from January 1, 1883, said company agreeing to allow the city to draw and use all the water required for its Water-Works without measurement during said term, the city agreeing to pay said company the sum of three thousand dollars.

The work, as indicated above, has been completed during the year, and is now in successful operation.

It will be observed that the new 18-inch main pipe terminates near the entrance to Blossom Hill Cemetery. Should the necessities of the city ever require a larger supply of water, it is the intention of the Board to continue this pipe southerly through State, Fisk, and Main streets.

The Board take pleasure in being able to state that the contractors have performed their contract faithfully, and to the entire satisfaction of the Board; and though they were required to make some changes from the contract, and to do some extra work, they have made no claim for extra compensation therefor. They understand their business, and are willing to perform their contracts.

The following financial statement shows the receipts and disbursements on account of said work:

The year 1882 was one of unprecedented drought. Hon. W. L. Foster, in his "weather report," says, "The rain-fall was  $1_{700}^{63}$  inches less than the smallest annual rain-fall recorded in twenty-seven years."

The following table shows the height of the water at the dam on the first day of each month:

January,		177.60	July, .	181.10
February,		177.90	August, .	180.20
March,		178.70	September,	178.70
April,		180.40	October, .	178.70
May,		180.60	November,	177.80
June,		181.10	December,	176.90

The lowest point reached was December 1, being 176.90,

<sup>\*</sup> The difference between this balance and the Treasurer's balance, as shown on page 60, arises from the fact that some of the Water-Works coupons have not been presented for payment.

and the highest, June 2, 181.40; mean height, 179.15, being  $4\frac{45}{100}$  feet higher than during the year 1881.

For the past ten years the average height of the water in each year has been as follows:

1373,		175.86	1878,		179.50
1874,		179.50	1879,		179.74
1875,		180.00	1880,		175.31
1876,		180.28	1881,		174.70
1877,		176.46	1882,		179.15

Mean height for ten years, 178.05.

We publish below the receipts for each year for ten years, which show that the amount received during the last year is larger than ever before. The amounts are as follows:

For the year ending January 31, 1874,		\$4,431.10
For fifteen months ending April 1, 1878	5,	17,535.00
For the year ending April 1, 1876,		16,921.24

Total receipts for ten years,		\$202,494.48

Our city has now been supplied with water from Long Pond for a period of ten years. We can review these years with much satisfaction. No one at the present time doubts the wisdom of the undertaking. Its practicability and usefulness have been demonstrated beyond question. The original works were thoroughly constructed, so that only a very small sum has been required for repairs. The cement-lined pipe has been found to be adapted to our wants. The water

supplied has been pure, and generally abundant. Takers have increased from year to year, and are still increasing; the rates have been reduced; large improvements have been made in the works; and with moderate rates the income is ample to pay interest charges on the bonded debt, and all charges for care and maintenance. The destruction of property in the city by fire has been largely diminished in consequence of the ample supply of water at hand to extinguish fires. Insurance rates have been correspondingly reduced. The great majority of our citizens have been abundantly supplied with water for family uses, and large quantities have been furnished for sprinkling lawns and other purposes. By the recent improvements, it is believed that every citizen who desires the water can be supplied, and that the annovances that have heretofore occurred at the high points in the city, by reason of an intermittent supply, will be remedied. our population increases, the demands upon the Water-Works will increase; but the stores in reserve are ample for our probable wants for generations to come. Of the many attractions of our beautiful city, this certainly is not the least. Its blessings literally flow to us continually and abundantly, and at a reasonable rate.

## CITY PHYSICIAN'S REPORT.

#### To the City Council:

For the year ending December 31, 1882, I have made

Visits at Almshouse,	25
Visits to those, aided by city, not at Alms-	
house,	252
Prescriptions at office,	11
Cases of midwifery.	1

I am safe in saying that there is a population of twelve thousand in that part of the city that would come to me in case medical assistance were furnished by the city.

The actual number that have been prescribed for by me during the year was thirty-eight. Of this number four were surgical cases,—two fractures of forearm, one fracture of forearm with dislocation at elbow, and one case of attempted suicide. In the latter two trials were made. The first was only a small flesh wound, but the second attempt resulted in cutting the wind-pipe about half off. I treated the patient until the wound had nearly healed, however, when it was thought best to remove her to the county farm, and the case passed out of my hands.

#### ALMSHOUSE.

The whole number of inmates was twelve; average number during the year, seven and two thirds. My professional visits have hardly averaged one every two weeks. As has

always been my custom when in that part of the city, I have made other calls, and kept myself informed of the very general good condition of all there. The frequent small ailments that will arise among the class that are always in such institutions have been met by the matron, thus making my visits less frequent. The good management of all having in charge those at the almshouse has continued the past year. One man, aged 87, died from old age. I would call attention again to the buildings that remain as rather ancient landmarks.

Respectfully submitted,

GEORGE COOK,

City Physician.

Concord, N. H., January 3, 1883.

## REPORT OF THE BOARD OF HEALTH.

#### To the City Council:

Twelve complaints have been made to us during the year, of the following nature:

Drains opening on top of ground,	4
Uncleansed privy vaults,	3
Filthy pig-pens,	5

The above does not include a large number of verbal complaints that have been made to individual members of the Board.

It must be remembered that we have no system of inspections: practically nothing is done by the Board except upon complaint. While we are sure that our city is very generally clean, and free from nuisances, we question whether it is wise always to wait for complaint. With a very small sum of money, a complete inspection of the compact part of the city could be made. We are sure that the suggestions that might come from a competent inspector would be appreciated by most of our citizens, and his advice readily followed.

#### WATER SUPPLY.

Each year finds a steady increase in the number of consumers from the main supply. We venture the assertion, that the day is not a great while hence when every person within the water district will be dependent upon Long Pond

for their daily use. What a responsibility is upon us all! How important that that great reservoir, which is to provide us all with the water we drink, and that is used in cooking all of our food, should be kept pure. We have as pure a supply as any city in New England. Much money has been spent by the city upon its Water-Works, and wisely spent, we believe. With the new pipe laid this year we have a very abundant supply.

Now, although motors may be run and fires can be put out with water loaded with organic matter, it is not the kind for man to eat and drink. We are sure that this most important aid to the city's wealth and prosperity demands watchful and intelligent care. Thus far this has been had. It is only for the future that we are anxious, and speak a warning word.

#### SEWERS.

With an abundant water supply, sewers become a necessity. Year by year new pipe is laid until at the present time we have a very complete and well-ordered system. As regards their ventilation and proper supervision, we can only repeat what was said in our report last year. We consider these matters of great importance, and what was said then was said in good faith, and because we believed they were needed. We have seen no cause to change our minds in the year that has just passed.

#### VITAL STATISTICS.

Whole number of deaths among residents,	216
Population,	14,000
Death-rate per thousand,	15.44

We have included as among residents the one death at the almshouse. Last year the whole number of deaths was 240, making our death-rate 17 and a fraction per thousand. As has been our custom, the 18 still-births this year are not included among the births or deaths, but are classed by themselves. We would call attention to Class I, Zymotic diseases: Cholera infantum, 7; diphtheria and diphtheretic cronp, 4. It is a very remarkable showing. Typhoid fever has had only 8 victims, and the disease prevailed to a greater extent last autumn than for many years before.

Order III—Tubercular Diseases. Nearly one sixth of the whole number of deaths has been from consumption.

Of the circulatory system, 21 deaths have occurred from the different forms of diseases of the heart; while of the respiratory system only 14 deaths from pneumonia have taken place. Forty-two deaths have occurred among children under 5 years of age, and 56 in persons over 70.

The whole number of living births has been 272, showing that our increase of population has kept quite largely ahead of the decrease.

The city ordinance requiring physicians to make return of births and deaths to the registrar has now been in operation four years. We believe no other city in New England can show equally accurate tables of vital statistics.

Respectfully submitted,

JOHN CONNELL, GEORGE COOK, A. E. EMERY,

Board of Health.

Concord, N. H., Jan. 1, 1833.

## PUBLIC LIBRARY.

#### REPORT OF THE TRUSTEES.

To the City Council:

The Trustees of the Public Library present their report for the year ending December 31, 1882. Accompanying are the reports of the librarian and the treasurer.

The public library is largely the teacher of the community. It aids during school-days; but in the education after the school, it is a large factor. The books selected for it should therefore be the best upon all subjects of useful knowledge. It must have standard works, and in a good degree furnish the new books of interest. To meet this demand has been the design of the trustees. The one great obstacle in the way is want of funds. The appropriations are still far below the pressing needs of this city. The expenses for the coming year will be increased by the preparing and printing a new catalogue.

The use of the library depends upon the readers. The books are for service, not for ornament, and the more they are used the better.

The exposed position of the library should lead us to keep it well insured, and also, as does its growth, constantly remind us of the need of a safe and commodious library building.

The report of the librarian gives the particulars of the year past. The trustees would respectfully suggest to the

city council the consideration of the recommendations made by the librarian.

Respectfully submitted.

#### REPORT OF LIBRARIAN.

#### To the Trustees of the Public Library:

The librarian herewith presents his report of the additions made to the library during the eleven months ending with the 30th day of December, 1882:

Number of volumes purchased,	254
Number of volumes of periodicals bound, .	33
Number of volumes donated to the library,	90
Number of pamphlets donated to the library,	90
Making an addition of	467
volumes and pamphlets.	

Seventeen volumes have also been bought to take the place of worn-out books in the library.

The library now contains more than eight thousand volumes, about six thousand of which are in the circulating library. Of the remainder, about four hundred volumes are used as books of reference; and more than sixteen hundred volumes are made up of congressional documents and other matters of equal or less value.

The annual circulation of books is about twenty-four thousand volumes, and there has of late been a slight increase in the number of our patrons.

The propriety of a larger annual appropriation for the support and increase of the library than has been customary in times past is respectfully commended to the consideration of the city government.

By a slight change now being made in the library-rooms, accommodations will be made for seven thousand volumes more than we now have. Shall the space be filled?

I would suggest that an insurance of at least \$5,000 should be placed upon the library.

Accompanying this is a list of the books placed in the library since the publication of the last supplemental catalogue.

DANIEL F. SECOMB, Librarian.

# BOOKS ADDED TO THE CIRCULATING LIBRARY SINCE THE PUBLICATION OF SUPPLEMENT NO. 9, IN 1880.

## REPORT OF THE CITY SOLICITOR.

To the City Council:

At the adjourned law term held in August last the law questions in the suit of John F. Edgerly and wife v. Concord were decided in favor of the city, and this probably ends the case.

The suit of Ann G. Currier v. Concord follows Edgerly v. Concord, a nonsuit having been entered at the October term, 1882.

The suit of Concord v. Warner was tried before Hon. W. H. H. Allen at the October term, and the decision was in favor of the city. The amount of the bill, \$37.78, has been collected of Warner and paid over to the city treasurer.

The petition of Lydia W. Clough was heard by Judge Allen at the April term, 1882, and the decision was that the said Lydia W. Clough be allowed to file her claim in the office of the city clerk within a certain time. She filed her claim within the time allowed by the court, and on the 10th day of July, 1882, she sued the city, claiming damages to the amount of \$3,000. The case has not yet been tried.

March 1st, 1882, William K. Norton sued the city for damages to himself and team, occasioned, as he alleges in his writ, by a defect in the highway leading from the city proper to West Concord, at a point nearly opposite the new state prison. The accident happened on the 13th day of January, 1882, and the amount of damages claimed is \$1,000. There have been some efforts made to settle this case, and it may

yet be arranged to the satisfaction of all parties. If not settled, it will probably be tried at the April term, 1883.

June 12th, 1882, Marcus P. Norton, trustee and assignee in trust, et als., sucd the city in the United States circuit court to recover damages for an alleged infringement of certain letters-patent of the plaintiff for a relief valve attached to steam fire-engines. The amount of damages claimed is \$40,000. He has also brought similar actions against the cities of Manchester, Nashua, Portsmouth, and Dover, in this state. Concord has united with these cities in making a common defence against this extortionate and unrighteous demand. Patent lawyers have been retained to conduct the defence, and other steps have been taken to secure a fair trial of the cases. It will be in order for trial at the May term, 1883, of said court at Portsmouth.

October 26, 1882, the city brought a bill in equity against one John B. Giles, of said Concord, asking that said defendant be commanded to remove a certain building owned by him and projecting some ten feet into and over the "Kit Factory road," so-called, in West Concord. Upon this there was a temporary injunction granted. December 26, 1882, the defendant answered, denying the material allegations of the bill. It will be heard at the April term, 1883.

The suits of Clough and Norton v. Concord, the "Knibbs Patent suit," so-called, and the bill against Giles, are all the cases now in court in which the city is a party.

ROB'T A. RAY, Solicitor.

Dec. 31, 1882.

## REPORT OF THE POLICE JUSTICE.

To the Mayor and Aldermen of the City of Concord:

#### SUMMARY.

The losses for the entire city for the year aggregate \$62,363.50; insurance, \$42.478.50.

During the current year there has been erected at Fisher-ville a commodions brick and slated engine-house, with hose-tower, containing ample apartments for apparatus and a large room for members' use in the lower story, and a spacious hall for ward purposes in the second story. It has a well cemented cellar underneath, with hose-trough, water conveniences, and drying apparatus. Its cost, with lot, was about \$8,000. A new "Silsby" fourth-size steam fire-engine has been purchased, at a cost of \$3,000. It is numbered 723, and bears the name of "Pioneer No. 3."

The city has also purchased 1,650 feet  $2\frac{1}{2}$ -inch fabric hose (Paragon) for the Central Fire Station.

JOHN M. HILL, Chief Engineer.

WILLIAM D. LADD, Clerk. Concord, December 30, 1882.

Note. The Board of Engineers, as constituted for the year 1882, was as follows: Chief Engineer, James N. Lauder; Assistant Engineers, Precinct, Nathan H. Haskell, Charles M. Lang, William D. Ladd (clerk of Board), Daniel B. Newhall, George L. Lovejoy; Ward 1, Robert Crowther; Ward 2, John E. Frye; Ward 3, Harrison Partridge. Capt. Lauder resigned as chief engineer, August 26, and Charles M. Lang was appointed. Capt. Lang resigned, December 30, and John M. Hill was appointed to fill the vacancy. William D. Ladd, Daniel B. Newhall, and George L. Lovejoy resigned as assistant engineers, December 30, but at the request of the chief engineer acted until February 1, 1883, when the new Board of Engineers went into commission. Napoleon B. Burleigh was elected assistant engineer August 26, filling the vacancy caused by the promotion of Capt. Lang as chief engineer.

## REGULATIONS

OF THE

# CONCORD PRECINCT FIRE DEPARTMENT,

ADOPTED BY THE BOARD OF ENGINEERS, JANUARY, 1874.

ARTICLE 1. Any engine or hose company, running out a line of hose from a hydrant or steamer, shall be entitled to the pipe, although the hose of other companies may be attached in order to reach the fire; and any company coming to a fire, and finding an incomplete line of hose laid out from a hydrant or steamer, shall attach to and lengthen out such line, in lieu of laying a line of its own.

ART. 2. When two or more engine or hose companies are playing in a continuous line, the pipe shall belong to the company attaching to the hydrant or steamer, as provided in the foregoing article; but any company furnishing the *entire* line, and receiving water from a steamer, the pipe shall belong to such company so receiving.

ART. 3. Each engine and hose company shall have equal claim to the hydrants; but it is enjoined upon the engine companies to draught their own water from a reservoir, wherever a suitable one can be found within a reasonable distance.

ART. 4. No company shall take possession of a hydrant or reservoir, unless their hose and apparatus for attaching to the same are at hand and ready for use. The company which shall be thus ready shall be entitled to such hydrant or reservoir; but, upon the order of an engineer, another

company may attach a second line of hose from such hydrant or steamer, in ease the same may be necessary,—such company having first laid its hose, and being ready to attach the same.

- ART. 5. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.
- ART. 6. No company, while returning from a fire, will be allowed to proceed faster than a walk, and at all times to keep on the right of the street. Drivers are strictly enjoined, in proceeding to a fire, to use the utmost care and caution consistent with promptness. Racing between companies is forbidden, under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.
- ART. 7. No member of any company shall leave the city without first informing his foreman; no foreman or assistant engineer, without first notifying the chief engineer,—in each case the party so leaving providing a substitute.
- ART. 8. In case of fire, the foreman first arriving shall be in command until the arrival of an engineer.
- ART. 9. Any order issued by the chief, or an assistant engineer, shall be promptly obeyed.

### CONCORD FIRE-ALARM TELEGRAPH.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into four districts, viz.,—

DISTRICT 1. Embraces that section of the city north and west of Washington street, box 17 of this division being located on the *south* side of the street.

DISTRICT 2. Embraces all between School and Washington streets.

DISTRICT 3. Embraces all between Pleasant and School streets.

DISTRICT 4. Embraces all south of Pleasant street.

The first figure of the box number will indicate the district.

## TRUST FUNDS.

WALKER SCHOOL FUND. This fund was a legacy of ABIAL WALKER. Will dated Jan. 3, 1855. "To the city of Concord aforesaid I give and bequeath one thousand dollars, in trust, to be added to the school fund of said city, the interest whereof to be divided in due proportion among all the districts in the city at the time the dividend takes place, to be paid over to said city in one year after my decease." The amount of this fund is \$1,000, and is invested in a note of that sum of the Concord City Precinct, due in 1895.

Lyon Legacy is from G. Parker Lyon. Will dated Jan. 23, 1865. "I give and bequeath to the city of Concord, in the county of Merrimack, in trust, for the increase of the free public library of said city, the annual income thereof only to be annually expended in the purchase of books for said public library, the sum of one thousand dollars." One precinct note of \$1,000, interest 6 per cent., due 1896.

PIERCE LEGACY is from FRANKLIN PIERCE, ex-President of the United States. Will dated Jan. 22, 1868. "16th. To the city of Concord I give and bequeath, in trust, for the 'Concord Public Library,' one thousand dollars, the interest of said sum to be expended annually in the purchase of books, and the principal to remain as a perpetual fund for the object indicated." One city bond of \$1,000, due 1885.

COUNTESS RUMFORD LEGACY is from the COUNTESS OF RUMFORD. Will dated Nov. 10, 1852. "To the town of Concord aforesaid, in trust, for the benefit of the Concord Female Charitable Society, an association in said town, two thousand dollars, to be applied to the charitable uses and purposes of said society, and under its direction. And in ease the said town should be incapable of or decline said trust, then the same is given and to be paid over to any two

persons whom the executor of my will may elect and name, to administer said trust." Note, Isaac A. Hill, \$2,000, dated Jan. 27, 1877, secured by mortgage of real estate and surety.

OLD CEMETERY FUND. There has been invested, of the proceeds of sales of lots, \$700 in Water-Works bonds, bearing 6 per cent interest. The income from this fund is devoted to the care of the Old cemetery.

Blossom Hill Cemetery Fund. There has been invested, of the proceeds of sales of lots, \$550 in U.S. four per cent. bonds, \$900 in Merrimack county (N. H.) five per cent. bonds, \$200 N. H. six per cent. bonds, \$200 Concord six per cent. bonds, \$1,000 Concord 4 per cent. bond, \$700 town of Franklin (N. H.)  $4\frac{1}{2}$  per cent. bonds. The income of this fund is devoted to the care of this cemetery.

OSGOOD SCHOOL FUND. This fund is a legacy of \$200 of Rev. Nathaniel Bouton, d. d., by him received by will of the estate of David Osgood, of Concord, "the income of which is to be applied to the purchase of school-books for poor children." The amount is invested in six per cent. bonds of the city of Nashua, N. H., due 1890.

CEMETERY DONATION FUND. This fund is received and held under the provisions of Chapter XXXIV, Laws of 1876, and a joint resolution of the city council, passed September 28, 1878, as follows: "That the city hereby accepts and will accept all donations and legacies made for the purposes of ensuring proper care and attention to any grave or lot in any public cemetery, and the avenues connected therewith, and the monuments belonging thereto." Received from Charles A. Dole and Lyman D. Stevens, executors of the estate of James McQuestion, \$200; invested in a Merrimack county five per cent. bond, due 1890. Received from Lyman D. Stevens, administrator of estate of Theodore French, \$100; invested in a U. S. four per cent. bond, due 1907. Received from John and Samuel Wentworth, children of the late Paul Wentworth, \$200 four per cent. bonds, due 1907.
